-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 01 September 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

1. This Office Action is in response to the Amendment filed on September 1, 2006.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a) because they fail to show mounting plate "24", female connector "60", hoist catch "84" and interior floors "32" as described in the specification. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1723

4. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Recitation of "said chamber" on line 1 lacks a positive antecedent basis. "said chamber" is considered a chamber in a rack for examination purposes.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 1 and 5-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Alliot (U.S. Patent No. 1,919,085).

Regarding Claim 1, Alliot discloses a filter vessel comprising: a frame (2, 3) defining at least one compartment; a rack (6) having wheels (8) on rails (9) for slidingly engaged with the compartment and adapted for movement in a substantially horizontal plane into and out of the compartment (Fig. 2, 4; col. 1, lines 13-30; col. 1, line 87 – col. 2, line 31); and at least one candle housing (7) removeably positioned in the rack (6).

Regarding claim 5, Alliot discloses that the rack is a header (6) being a hollow tube (Fig. 5-6; col. 3, lines 31-37).

Regarding claim 6, Alliot discloses chambers (6b, 6c) in the header (6) (Fig. 6; col. 3, lines 31-37).

7. Claims 1-3 and 5-6 are rejected under 35 U.S.C. 102(e) as being anticipated by Murkute et al (U.S. 2004/0188339 A1).

Regarding Claim 1, Murkute et al disclose a filter vessel comprising: a frame (96) defining at least one compartment; a rack (22) for slidably engaged with the compartment and adapted for movement in a substantially horizontal plane into and out of the compartment (Fig. 8; paragraph 0073) and at least one candle housing (48) removeably positioned in the rack (22) via receptacle (26) (Fig. 9).

Regarding claim 2, Murkute et al disclose a plurality of filter elements (30) in the candle housing (48) (Fig. 9; paragraph 0030).

Regarding claim 3, a potted end (32) of Murkute et al is considered a mounting plate (Fig. 9).

Regarding claims 5-6, Murkute et al that the rack is a header (22) being a hollow tube in fluid communication with a chamber above potted end (32)(Fig. 9).

Allowable Subject Matter

8. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. Claims 7-17 are allowed.

Response to Arguments

10. Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Kim whose telephone number is 571-272-1142. The examiner can normally be reached on Monday-Friday 7 a.m. - 3:30 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Kim can be reached on 571-272-1142. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
